

How to Make A Slip Knot

1. Bring the tail end of the yarn over the working yarn, making a circle.

2. Fold up a loop of the working yarn over the circle.

3. Flip the circle down over the loop.

4. Pull up on the loop, and bring the yarn ends parallel.

5. Hold the loop with one hand, and pull on the yarn tail with the other hand to tighten the knot. Pull on the working yarn to make the loop smaller.
